PROFESSIONAL SUMMARY

Multidisciplinary Geomatics Engineering student skilled in geospatial analysis, land surveying, CAD design, web development, and graphic design. Experienced in GIS mapping, cadastral surveying, GNSS data processing, and developing modern web applications using JavaScript frameworks. Strong analytical thinker with proven ability to work independently and deliver technical solutions in remote and collaborative environments.

EDUCATION

Dedan Kimathi University of Technology

BSc. Geomatics Engineering and Geospatial Information Systems

Expected Graduation: March 2027

Relevant Coursework: GIS, Remote Sensing, Land Surveying, Cadastral Survey, Programming, CAD

TECHNICAL SKILLS

Geospatial & Surveying

QGIS

ArcGIS Pro

GNSS Processing

Remote Sensing

Google Earth

Spatial Analysis

CAD & Survey Design

AutoCAD

Civil 3D

Parcel Subdivision

Cadastral Mapping

Programming & Development

JavaScript

TypeScript

React

Next.js

Hono

Python

Data & Productivity

Excel

Google Sheets

GitHub

Notion

Design

Graphic Design

Logo Design

Web Design

PROFESSIONAL EXPERIENCE

Kenya Wildlife Service – Civil & Lands Department (Attachment)

- Assisted with surveying operations and land-related technical documentation.
- Supported spatial data management and mapping workflows.

Mitambo Mithamo Licensed Land Surveyors – Intern

- Participated in GNSS field surveying and control point data collection.
- Supported cadastral survey preparation and parcel mapping.
- Produced technical drafting outputs using CAD tools.

Freelance Web Developer (Remote)

- Built responsive websites using modern JavaScript frameworks.
- Developed and deployed web applications and portfolio platforms.
- Maintained project codebases using GitHub.

Freelance Graphic Designer (Remote)

- Designed logos and brand identity graphics for clients.
- Created digital design assets for online businesses.

KEY PROJECTS

- GIS Mapping and Spatial Analysis
 - Flood Risk Mapping and Visualization
 - Parcel Subdivision and Cadastral Mapping
 - Geospatial Data Digitization
 - Web Application Development
 - Client Branding and Logo Design
-

CORE STRENGTHS

Analytical Thinking

Problem Solving

Attention to Detail

Fast Learner

Independent Worker

Communication Skills

REMOTE WORK TOOLS

Google Meet

GitHub

Discord

LinkedIn

Notion

LANGUAGES

English

Swahili

INTERESTS

- Building technology startups
- Geospatial innovation and mapping technologies
- Helping organizations grow using technical solutions
- Working in technology-driven teams
